

## **Kennedy Way Surgery**

### Publication of Earnings

All GP practices are required to declare the mean earnings (e.g. average) for GPs working to deliver NHS services to patients at each practice.

The average pay for GPs working in the Kennedy Way Surgery in the last financial year before tax and national insurance was **£57,953**. This is for 4 full time GPs, 3 part time GPs and 1 locum GP who worked in the practice for more than 6 months.

It should be noted that the prescribed method for calculating earnings is potentially misleading because it taken no account of how much time doctors spend working in practice and should not be used to form any judgement about GP earnings, nor to make any comparisons with any other practice.
